

ELANGO VAN S

Full Stack Web Developer | AI/ML Enthusiast

+91 9092017348 | elangouvaraj00@gmail.com | Vellore, Tamil Nadu

SUMMARY

B.Tech student in Artificial Intelligence and Data Science with hands-on experience building full-stack web applications and machine learning solutions. Currently gaining practical industry experience through an ongoing Full Stack Web Development internship, working on a video-streaming platform. Skilled in React/Next.js, Node.js, Express.js, MongoDB, and Firebase Authentication, with additional exposure to cloud infrastructure and applied ML. Active hackathon participant with strong problem-solving and collaboration skills.

SKILLS

Frontend	React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST API Development
Database	MongoDB
Authentication	Firebase Authentication
Tools & Technologies	Git, Postman, VS Code, AWS (EC2, S3, IAM, VPC), VirtualBox, Excel
Version Control	Git, GitHub
Machine Learning	Python, TensorFlow, PyTorch, OpenCV, NumPy, Pandas

EXPERIENCE

Full Stack Web Development Intern — Elevanceskill Privated Limited *July-August 2026(July 22-August 22)*

Tools: React.js / Next.js, Node.js, Express.js, MongoDB, Firebase Authentication

- Contributing to the development of a YouTube Clone / video-streaming web application, working across both frontend and backend.
- Building and integrating REST APIs to connect frontend features with backend services.
- Working with MongoDB for database design and data management.
- Implementing Firebase Authentication for secure user login and access management.
- Improving the comment system functionality and overall user interaction features.
- Developing responsive UI components to ensure cross-device compatibility.
- Following a Git/GitHub-based version control workflow for collaborative development.

Cloud Infrastructure & Services Intern — Redback IT Solutions Private Limited *June 2026 (02 – 30 June 2026)*

- Completed a hands-on internship focused on cloud infrastructure and services, gaining practical exposure to core AWS concepts including compute, storage, and identity management.
- Worked with virtualization tools (VirtualBox) and cloud networking fundamentals (VPC) to understand deployment environments.
- Certified by Redback IT Solutions Private Limited (recognized by MSME, NASSCOM, ISO) for active participation in the Cloud Infrastructure & Services track.

Hackathon Participant — MSME & Smart India Hackathon (SIH) *National Level*

- Collaborated in cross-functional teams to design and prototype AI-based solutions under competitive time constraints, including a Vehicle Accident SOS System (IoT + wireless communication).
- Participated in both college-level and national-level hackathons, including MSME and SIH.

Indian Data Club — Event Coordinator

- Conducted and participated in workshops, seminars, and hackathons focused on data science and AI.

PROJECTS

YouTube Clone / MyTube Clone

Personal Project

Tools: Next.js, React, TypeScript/JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase Authentication

- Built a full-stack video-streaming web application with a React/Next.js frontend and a Node.js/Express.js backend backed by MongoDB.
- Implemented Firebase Authentication and REST API integration to support secure user sessions and core video functionality.
- Developed key features including video management, comments, likes/dislikes, watch history, and watch later.
- Designed a fully responsive interface using Tailwind CSS for a consistent experience across devices.
- Managed source control and collaborative development workflow using Git & GitHub.

Machine Learning Model — Sign Language Recognition

Academic Project

Tools: Python, PyTorch, MediaPipe, NumPy, Pandas

- Developed a real-time sign language recognition model using PyTorch and MediaPipe, trained on the American Sign Language (ASL) hand-sign dataset.
- Engineered the data pipeline using NumPy and Pandas; built and tuned the classification model.
- Presented model findings, performance metrics, and evaluation analysis to peers and faculty.

Emotion Detection

Personal Project

Tools: Python, OpenCV

- Built a real-time facial emotion detection system using OpenCV for face tracking and classification.

Web Development Projects — Aero-phonics & Flora

Freelance / Personal

Tools: HTML, CSS, TypeScript

- Aero-phonics: built a headphone e-commerce website front-end.
- Flora: developed a feature-rich gifting platform website.
- Currently building a Brain Tumor Detection LLM-based medical chatbot (in progress).

EDUCATION

B.Tech — Artificial Intelligence and Data Science — Annai Mira College of Engineering and Technology, Ranipet

2024 – 2028

CGPA: In Progress

Higher Secondary (10th – 12th) — Sri Vivekananda Matric Hr Sec School, Vellore

2021 – 2024

CERTIFICATIONS

- **Cloud Infrastructure & Services – Internship Certificate** | Redback IT Solutions Pvt. Ltd. | 2026
- **Introduction to Agent Skills** | Anthropic (Claude) | 2026
- **Code in Action** | Anthropic (Claude) | April 2026
- **MongoDB Overview: Core Concepts and Architecture** | MongoDB | March 2026
- **Google Gemini Workshop** | Google | [Date not specified]
- **MATLAB vs Octave** | VIT |
- **Joy of computing in python** | NPTEL |
- **14-Day Challenge** | Databricks |
